The earth is certainly not ready to realise such an ideal, for mankind does not yet possess the necessary knowledge to understand and accept it or the indispensable conscious force to execute it. That is why I call it a dream.

The Mother on Auroville - page 6

It may well be that, once started, the [supramental] endeavour may not advance rapidly even to its first decisive stage; it may be that it will take long centuries of effort to come into some kind of permanent birth. But that is not altogether inevitable, for the principle of such changes in Nature seems to be a long obscure preparation followed by a swift gathering up and precipitation of the elements into the new birth, a rapid conversion, a transformation that in its luminous moment figures like a miracle. Even when the first decisive change is reached, it is certain that all humanity will not be able to rise to that level. There cannot fail to be a division into those who are able to live on the spiritual level and those who are only able to live in the light that descends from it into the mental level. And below these too there might still be a great mass influenced from above but not yet ready for the light. But even that would be a transformation and a beginning far beyond anything yet attained. This hierarchy would not mean as in our present vital living an egoistic domination of the undeveloped by the more developed, but a guidance of the younger by the elder brothers of the race and a constant working to lift them up to a greater spiritual level and wider horizons. And for the leaders too this ascent to the first spiritual levels would not be the end of the divine march, a culmination that left nothing more to be achieved on earth. For there would be still yet higher levels within the supramental realm, as the old Vedic poets knew when they spoke of the spiritual life as a constant ascent, –

"The priests of the word climb thee like a ladder, O hundred-powered. As one ascends from peak to peak, there is made clear the much that has still to be done."

We have in fact spent all these centuries preparing the Base: a base of security and well-being through our science, a base of charity through our religions and morals, a base of beauty and harmony through our arts, and a mental base of rigorous exactitude, but these are all bases for something else. Absorbed as we are in our effort for perfection, we see only one angle of the great Work – the angle of earthly immortality, like the rishis; the angle of eternal Permanence, like the Buddha; the angle of charity, of well-being, all kinds of angles – but we are not going to continue playing forever like children with building blocks! None of these is an end, but only a negative condition of the Play. Nothing has really yet begun! Perhaps we are expected, first, to become conscious of the Play in order for it to begin. We have exhausted all kinds of adventures since Jules Verne, and they have all gradually closed in on us. What war, what revolution is still worth giving one's blood for? Our Everests have all been deflowered, and the high seas are patrolled night and day; everything is monitored, precalculated, even the stratosphere. Could this be intended to lead us to the only possibility left in this increasingly asphyxiating world? We had assumed we were only short sighted little moles on a big planet, so we proceeded to rectify the great Eye within, and our wings, by substituting a steel machinery that is now crushing us mercilessly – perhaps to compel us to believe as much in ourselves as we do in our machines, and to understand that we can realize far more than they. "They go round and round, battered and stumbling, like blind men led by one who is blind," said the Upanishad long ago. Perhaps the time has come to look beyond all our small constructions and to begin the Play? Instead of playing with shovels, bulldozers, gospels, and neutrons, let us clear the consciousness and cast that seed to the winds of time, that life may truly begin.

O Force-compelled, Fate-driven earth-born race,
O petty adventurers in an infinite world
And prisoners of a dwarf humanity,
How long will you tread the circling tracks of mind
Around your little self and petty things?
But not for a changeless littleness were you meant,
Not for vain repetition were you built...
Almighty powers are shut in Nature's cells.
A greater destiny awaits you in your front...
The life you lead conceals the light you are.

Glancing beyond the old wall, we see that everything is already there, only waiting for us to want it:

I saw them cross the twilight of an age,
The sun-eyed children of a marvellous dawn...
The massive barrier-breakers of the world...
The architects of immortality...
Bodies made beautiful by the Spirit's light,
Carrying the magic word, the mystic fire,
Carrying the Dionysian cup of joy...

OBITUARY

EX-CHAIRMAN OF THE GOVERNING BOARD, DR. MS SWAMINATHAN, PASSES AWAY

This is to inform the community that Dr. MS Swaminathan, distinguished agricultural scientist and the leader of India’s Green Revolution, passed away on Thursday 28 September, at the age of 98. He was the founder and chief of the MS Swaminathan Research Foundation in Chennai, the organisation that played a key role in developing high yielding rice varieties that boosted the income and productivity of poor farmers.

As he was holding, among many other functions, the UNESCO Chair of Eco-Technology, it was not surprising that his interest in Auroville was true and lasting. Auroville was honoured to have him as Chairman of the Auroville Foundation from 1997-99, and saw him as a committed friend and adviser ever since.

In 2002, during a filmed interview for Swiss TV, Dr. Swaminathan said: “Auroville stands for fulfilment through work, work which is meaningful, work which can regenerate the environment, which can regenerate the human spirit, and can create more love and understanding and compassion among people. So, I think its message is very relevant to today’s world as after the September 11th events this is the message of hope.”

We salute a great man, and great friend of Auroville.

A FOLLOW UP INFORMATION MEETING ON THE LATEST MATRIMANDIR LAKE DEVELOPMENT

Date & Time: 5:30pm Tuesday 10th October 2023
Venue: Savitri Bhavan

Lake Information Meeting Part II

On the 19th of September the Varuna Lake Team had organized an information meeting about the Matrimandir Lake. The response to this meeting was by far exceeding all expectations. About 100 people were physically present, and 950 watched the meeting online.

After the meeting we got a number of communications which expressed feelings of frustration over the fact that the meeting had to be closed after 2:15 hours, because 3 of the convenors of the meeting had to reach their flight to Hong Kong.

Therefore, we will hold a follow-up meeting on the Tuesday the 10th of October, again at 5.30 in the late afternoon, and again in Savitri-Bhavan.

This time there is no limitation to the duration of the meeting, so we will be able to discuss questions at full length.

The subjects which the meeting will address are the following:

1. The targets for test-phase 1 of the MM-Lake, and the question if it makes any sense to wait for the next phase or not. According to our list of points for the research of Phase 1, we have achieved all what had to be researched in Phase 1 and it does not add any value to our research, if we wait now. But we are of course open to look at this and discuss our standpoint.

2. The desalination plant, its technical concept and its special features to meet the highest possible environmental standards.

3. The concept of general water-management for Auroville, as Varuna is proposing it and the role which the Matrimandir Lake has to play in this concept.

4. Our technical and scientific support for the Matrimandir Lake. Who are the scientists who accompany this project, how have we structured our flow of information and the procedure for technical decisions?

5. Sharing some of the preliminary test and researches we have carried out before starting the full lake.

For those who have not been part of the first meeting on the 19th of September, here is the link to the youtube-video. If you want to attend the second part, it would be good to be aware of what was discussed in the first part.

(https://www.youtube.com/watch?v=PS62FtMkpQ)

We would be very happy if the participation in this meeting and the interest in the subject is again as great and as full of life as it was on the 19th of September. We are looking forward to meet you!

UPDATE FROM THE DOG SHELTER

As announced in our September transparency report, Lore bid farewell to the shelter at the end of September to pursue her personal dreams.

Over the last six weeks, we’ve been actively seeking a qualified candidate for a half-maintenance position, but unfortunately, no one has come forward to join our team.

Despite having hired a second veterinarian which enables us to provide the best quality care for our 300 resident dogs seven days a week every afternoon, our ability to respond to emergency rescue calls is currently limited.

Until we fill the position of a rescue driver who is also legally qualified for canine first aid, we can only respond to rescue calls during daytime hours, from 9:00 to 17:00, Whatsapp: +91 89394 49413

For any emergency rescue calls outside of these hours, please reach out to BARK India: +91 94870 07552
THE SUN RAY IN THE MATRIMANDIR INNER CHAMBER IS OFF CENTER

Sitting in the Inner Chamber this morning I watched the sunray slide across the marble of the Mother’s symbol until it gently touched the white carpet of the Chamber floor.

Of course, the Ray should have been centered on the Globe, not sliding around on the Mother’s symbol. (We are looking for the mechanical or digital cause of this problem, manifesting for about two weeks now, but to no avail so far)

I thought of my old friend Ruud Lohman. He was always probing the symbolism of Matrimandir, in all its dimensions. Ruud, long gone, would have surely had a lot to say about this recent destabilization of the Sun Ray.

Clearly, something is amiss. Perhaps it is reflecting the difficulties and agitation flooding Auroville since many months.

Until recently, a few months perhaps, this stir had not come to touch, visibly, the center of Auroville. The daily works proceeded quietly, steadily, - its gardens always offering a silent evenning haven for all.

But recently, with the growing focus the execution of lake section 2, the energetic swirl of Auroville at large has finally touched the Center. Perhaps the Center has silently called it to come close, to embrace and to solve it?

Some say that the conflict in Auroville is between forces that want to build and forces that want to block the growth of the city. Forces that want to block Auroville’s physical manifestation.

My take, rather, is that the opposition is coming from forces that want to block the development of the Auroville Spirit, to prevent the growth of the true Auroville consciousness.

After all, what will be the use of building rapidly a city of concrete and glass? Will that shell then wait for some new, fresh generation of Aurovilians to come and inhabit it, to fill it with the true spirit?

Both are needed now: the physical growth of the city and the growth too, and more urgently, the growth of the true consciousness of Auroville.

Look at the world around: does it need a new city to be built? Even a new green city with all the latest adaptations to the climate crisis will only be one more green city among many now under incubation.

No. Auroville has to be the city the earth needs… the city with a Soul… with a living consciousness of unity. This is the challenge of today.

It is difficult, yes… we each have our position, our conviction of being the holder of the true point of view…. but, as the Mother encouraged us to do so many years ago, we have to strive to act from a true synthesis of views.

Reaching this true synthesis (we will not reach the pinnacle of truth right away, of course, but we can make some first faltering steps) we will send out into the world a tiny, but very powerful vibration of the Auroville spirit… and it will find its way.

It is challenging, even frightening, to let go of our mental/ vital positions…. it is an exploration into unknown territory…

To let ourselves by led by That… to be led by quiet indications coming from a higher, truer source.

But it is something urgent now, totally urgent, - for ourselves, and perhaps for the world.

Achieving this, I am sure that the Ray in the Inner Chamber will return to its center.

USE OF SCIENCE AND TECHNOLOGY IN MODERN TIMES

Prakriti (Matter) is the expression of Purusha (Consciousness). In the hierarchical Cosmic Play of the many levels of consciousnesses, which is based on the opposites, Matter can be used by either those allied with the Divine Consciousness or the undivine consciousness.

That is why in the very beginning of the Auroville Charter, this diversity based on unity or our essential Oneness is clearly stated:

"Auroville belongs to nobody in particular. Auroville belongs to humanity as a whole."

And immediately thereafter a clear "choice" is implied, a "must":

"But, to live in Auroville, one must be a willing servitor of the Divine Consciousness."

This "conscious choice of use" for either the Divine purpose or undivine purpose applies to everything that is Prakriti, physical-vital-mental or body-life-mind (for example one's psychophysical body or computer systems, money, etc.), as a tool of expression of the evolving individual Purusha, the Psychic being.

This "progressive Spiritual Evolution" also implies that many are still in the egoistic stage, which although false and undivine is the appropriate attitude at that stage, with each individual having the potential, the chance to advance to the True and Divine. Hence the Lila or the Cosmic Play that we are all in, starting billions of years ago from the Inconscient and the Ignorance of Mind (mental) evolving towards the Superconscient and Gnosis of Supermind or the Supramental, leading to the goal of this shared existence:

The Divine Manifestation... a Life Divine here on Earth.

Human beings or the Homo sapiens species as our current consciousness' (individual Purusha's) modality of manifest expression (Prakriti) is only a transitional stage, where we find ourselves circa 2023 in the advanced technological Age of Information and Communications, the IoT, A.I., all sorts.

I see this evolutionary stage as something that will intensely compel the few highly conscious humans to practice the advanced levels of the Integral Yoga of the Avatars Sri Aurobindo and the Mother that states in one core sentence: "Man is a transitional being..."

In the meantime, here are some references and guidance from the Mother:

"How does the Mother view the progress of Science and Technology in India? What contribution can they make to the growth of the Spirit in man?"

Its only use is to make the material basis stronger, completer and more effective for the manifestation of the Spirit.

https://incarnateword.in/cwm/18/basic-issues-of-indian-education

"Sweet Mother, If the children want to do practical work from the age of nine in the field of electronics or technology, should they be encouraged?"

Yes, of course.*

https://incarnateword.in/cwm/12/correspondence

For the moment let us all help in the Renaissance of Bharat Mata, the Guru of the World, as True Aurovilians working for the progress of Auroville, the City of Dawn:

- Auroville will be the place of an unending education, of constant progress, and a youth that never ages.
- Auroville wants to be the bridge between the past and the future. Taking advantage of all discoveries from without and from within, Auroville will boldly spring towards future realisations.

• Auroville will be a site of material and spiritual researches for a living embodiment of an actual human unity.

Zech, 2023.09.30

THE IMPORTANT THING NOW

Circa 2023: a most relevant reminder has popped up that is most appropriate to our current local, national and global circumstances:

"From a spiritual point of view, India is the foremost country in the world. Its mission is to give the example of spirituality. Sri Aurobindo came on earth to teach this to the world.

This fact is so obvious, that even a simple, ignorant farmer here is in his heart closer to the Divine than all the intellectuals of Europe.

All those who want to become Aurovilians must know that and behave accordingly, otherwise they are unworthy of being Aurovilians."

(Another Note)

"In the beginnings of humanity, the ego was the unifying element. It is around the ego that the various states of being were formed. But now that a superhumanity is about to be born, the ego must disappear and leave place for the psychic being which has slowly developed through divine agency to manifest the Divine in man.

The Divine manifests in man under the psychic influence, and that is how the coming of superhumanity is prepared.

The psychic being is immortal, so through it immortality can manifest on earth.

Hence, the important thing now is to find one’s psychic being, unite with it, and allow it to replace the ego, which will be forced either to convert itself or disappear."

The Mother

https://incarnatemother.in/agenda/13/february-8-1972

Here are the Avatars for the deeper understanding of and identification with one's Psychic being:

https://incarnatemother.in/search?query=psychic+being&page=1&phrase=true

And why is it important to find and unite with our Psychic being, which is only the first step prior to the Yoga, the Union with Source Spirit and the crucial Supramentalisation of our being?

Because the Lords of Falsehood and Death, with the hordes of adverse and hostile vital beings, are still around.

"And as long as these two beings exist, there will be difficulties."

"...they are doing as much damage as they can."

https://incarnatemother.in/cwm/04/8-march-1951
https://incarnatemother.in/cwm/03/12-may-1929

As Avatars, Sri Aurobindo and the Mother have revealed fully the Cosmic Play, and the way to eventually eliminate all difficulties and undivinities and transform all to the Divine. The coming of the Avatars is only to kickstart the most difficult paradigm shift, the initial descent of the Supramental Consciousness-Force and Its embodiment in their physical bodies as primary contagions. As the evolving and awakening Psychic beings in the same physical bodies, it is up to us to continue on for the full Supramental manifestation...

This current human vessel, this Homo sapiens psychophysical modality is only temporary:

"Man is a transitional being, he is not final."

And that is why they created Auroville, within Bharat Mata the Guru of the World:

• The whole earth must prepare itself for the advent of the new species, and Auroville wants to work consciously to hasten this advent.

• Little by little it will be revealed to us what this new species must be, and meanwhile, the best course is to consecrate oneself entirely to the Divine.

https://auroville.org/page/a-true-aurovilian

Are the troubles and difficulties humans and all sentient beings here and all over the world not clear and felt enough? Are most really that blind and numb not to see and feel?

It is of utmost importance for all Aurovilians to at least be aware of these and then make the choice to consciously collaborate with the needed psychophysical transformations for the coming Divine Manifestation. It is only through the fully awakened Psychic beings that the Supramentalisation process in the physical will happen.

As the unstoppable evolutionary process is hastening and intensifying, if you choose to stay in the Ignorance of the ego you will only suffer. We have been warned enough by Sri Aurobindo and the Mother:

"The choice is imperative: Truth or the abyss."

All modern tools for True Knowledge (Jnana) and Action (Karma) are now at our disposal... use them divinely.

And remember the first and last word of the Divine Sunlit Path:

Surrender (Bhakti)

Om Namo Bhagavate 🙏

We already have 1.35 lakhs, with donations from the Solar Fund, our own funds and the estimated resale value from the old batteries.

We are grateful for any donations that the community could support us with, to cover the remaining amount of Rs 77000.

We have opened an account at the Financial Service, 252625 Stefan and Ancolie Solar Batteries for the donations.

Thank you all very much in advance for helping us out. ❤️

MATRIMANDIR LAKE

On 19th September 2023, an information sharing evening was held at Savitri Bhavan regarding the Matrimandir (MM) lake construction project. A presentation was given by Michael Bonke, a friend of Auroville who is involved in both planning and funding the MM lake. A number of residents have expressed concerns about the recent excavation of the second section of the MM lake leading to the destruction of a large number of mature trees. The main concerns are regarding environmental impact of the fast-tracked plans for both Auroville and the bioregion, the lack of transparency and consultation with the residents and other experts. Some residents are holding a vigil to halt the felling of these trees until a more environmentally sound option for lake development is explored. This construction and tree felling is also occurring during the NGT rule to halt all new development in the Master Plan area.

Amongst those expressing concerns are the chief engineer of the test lake, Jan Imhoff. Previously he questioned why the second section of the lake is going ahead when evaluation of the data collected from the test lake has still not been completed. The timescale for this was originally set to be three years. He also raised concerns regarding planning approval, which is significant given the effect that the MM lake will have on both Auroville itself and the surrounding villages. In his most recent report he raises several further “points to address”, such as the importance of an Environmental Impact Assessment, clarification of how the lake will be filled with water, and who will be the responsible body for the project execution.

Satprem has also written a report noting his concerns regarding the project, as well as providing data showing that the lake cannot be filled with rainwater alone. Amongst other observations, he argues that the proposed desalination plant might never be built or finished, due to the environmental impact and because the pipeline would need to go through large sections of privately owned land.

At the presentation evening, Michael Bonke presented a plan for the MM lake that is highly experimental and technologically complex. His team recently designed an experimental “underwater-foil-cushion” to serve as an underwater storage unit, the intention being that, while the main body of the lake will be filled with rainwater, several of these storage units will be filled with desalinated water, stored at the bottom of the MM lake, and used to provide the city area with drinking water. He also outlined plans for uphill power storage as part of the lake design.

During an open question and answer session with Michael Bonke, a number of residents requested that information and data regarding the project be shared with the community, as well as independent expert evaluation on the project. No commitment was made during the evening to share data, open up plans to outside evaluation, or to allow community participation.

Regarding concerns about the potential toxicity of the water due to the 10m depth, Michael Bonke outlined that the design of the lake will allow wind to create a current in the water which will prevent toxicity. However, he admitted that the assumption that there will be a current is theoretical, and they will not know for sure if it will work until after the lake is completed.

The presentation ended with a section regarding the recent destruction of trees in the MM gardens. He stated that it was not possible to integrate any trees on islands or peninsulas within the lake as this would break the current and lead to stagnant water in the lake.

In a resident’s open letter to Michael Bonke, written after the presentation evening, it was asked that he consider criteria other than speed of construction, such as responsible planning, trust, collaboration, beauty and whether the proposed lake plan is in accordance with Mother’s vision.

For other documents related to the MM lake construction, please see here.

AVFO ASKS FOR ‘NO DUES CERTIFICATE’ IN ORDER TO RECEIVE VISA

Residents applying for a visa letter of recommendation (LoR) will not have their request sent to the AVFO until they receive a ‘no dues certificate’ from the AVFO ‘BCC’. This is a newly created document which confirms that they are paying their Auroville financial contribution. If it is found that the person has not paid their contribution in full, then the request for a LoR will not be sent until the deduction is set up, and up to three years of ‘back payments’ are collected in full - which could amount to over 1 lakh rupees.

Previously, there was recognition that a person’s contribution to Auroville could be paid in kind. In the reflections shared by the RA BCC in April 2023, it was noted that the AVFO ‘BCC’ were taking a very different approach to the collection of individual contributions than had been taken by previous groups. They stated “It is important to distinguish between a contribution and a tax … contributions are waived because the individuals are working for free, or previously made large donations to Auroville (and are now aged), or are between jobs and without resources. The current approach seems to be to administer the individual contributions as a tax, without understanding or honouring this human element.” The action also specifically targets Aurovilians who rely on receiving a visa LoR in order to stay in Auroville, namely non-Indian nationals or those without OCI status.

SATPREM’S EXPULSION UPDATE

Some of you may remember that on 19th June Satprem was notified by the FRRO Chennai that he had to leave the country on or before 1st July, although he holds a valid visa until December 2025, since the Secretary had apparently withdrawn his recommendation to work and live in Auroville. The Secretary never answered Satprem’s request for a reason, the AVFO ‘WCom’ published a list of false accusations that were countered by him.

Efforts were made to clear his situation in Delhi with some Auroville friends and a member of the RA WCom. His case was presented along with hundreds of support letters from around the world and pertinent facts regarding work in Auroville and India during the last 34 years.

The officials from the Ministry of Home Affairs alleged they would look into the matter and send an update.

In the interim, the AVFO groups have made several attempts to discredit Satprem and prevented the Auroville Earth Institute (AVEI) he founded from functioning, Margerita of FO FAMC claims since he is no longer on the RoR he may not manage his (AVEI) he founded from functioning, Margerita of FO FAMC claims since he is no longer on the RoR he may not manage his contributions as a tax, without understanding or honouring this human element.” The action also specifically targets Aurovilians who rely on receiving a visa LoR in order to stay in Auroville, namely non-Indian nationals or those without OCI status.

For more information on the Auroville Earth Institute, please see AVEI at a glance or visit their website, http://www.earth-auroville.com.
AYARPADI FARM THREAT REMOVED

In July 2023, an email was received by Ayarpadi farm demanding that they hand over “the land parcel that you are farming in situated next to Windarra, as well as the service farm” so that the land could be reallocated to “Aurovillians [sic] who have undergone 6 months of training at Unity Farm”. The Farm Group responded with a letter which stated that they were taken aback by the request, going on to say: “We wonder why you want to take a part of a good functioning farm to experiment with. Ayarpadi has been consistently producing field crops on this part of their farm.” The farm produces many grains that are in short supply in Auroville such as paddy, peanuts, ragi and sesame, as well as being the main supplier of boiled rice to Solar Kitchen.

Ayarpadi Farm has now received an email from the AVFO ‘Farm Service’, which stated that they would no longer be considering Ayarpadi Farm land for reallocation.

CHANGING THE NARRATIVE

In June 2023, the RA WCom shared via massbulletin their response to the AVFO ‘WCom’ Annual Report August 2021 - August 2022. The report contained a number of often repeated narratives that continue to be spread by the supporters of the AVFO to justify the ongoing takeover of Auroville’s assets. As the RA WCom notes “With the benefit of nearly 12 months of hindsight since the end date of this report, it is clear that many of these erroneous statements do not reflect the reality of the situation, however, we still continue to hear many of these narratives being repeated.” The response addressed numerous errors in the AVFO ‘WCom’ annual report, the most common of which will be shared in upcoming editions of the Bulletin.

The original statements from the AVFO ‘WCom’ are presented in italics, followed by the RA WCom responses.

Aurovillians “have taken possession” of Auroville’s lands

“The first generation of Aurovillians took possession of the donated lands, fenced it, and gave it community names, implying that the areas belong to them and they determined who could live there and who not. This attitude has huge repercussions on claiming (similar as possession) areas, stewardship, accountability of activities, and excluding other Aurovillians in those areas etc. Moreover, these Aurovillians were over-represented in the governing groups like the Working Committee, FAMC, and the Auroville Council, formerly called Executive Committee’. The main strategy was that within these groups the (financial) decisions were taken in favor of stewardship, maintenance, loans, taxes, donations, media, entry, land-acquisition etc. With regard to what suited them well while pushing development into a non- Galaxy- Masterplan direction. One of the most significant result of this constellation, is that growth became the big loser. Even after 54 years Auroville hardly managed to have 3200 residents. It should be at least 10-fold.”

Auroville has been developed according to its financial capacity and available funds, mainly contributed by residents and well-wishers from around the world. This statement appears to be a blatant attempt to tarnish the first generation of Aurovillians, which is disrespectful to the energy and resources that were put into making the area liveable for the many future residents. Aurovillians over the past 54 years have put in their personal resources, time and effort to create a large number of units and services that support the growth of the community based on its needs. Some examples are schools, health centers, outreach programmes, grocery outlets, farms, and forests, all for the benefit of the Auroville community and beyond. Painting those achievements as complete failures and attempts to “own” the community is willfully misguided, and extremely disrespectful. The whole community benefits from the work of each member - to name these developments as anti-growth is antithetical to their very nature. As for dealing with “ownership”, which is discouraged in Auroville, many initiatives are helping to address this challenge, and that of an alternative economy: the principle of stewardship, the maintenance system, the Free Store and ‘Library of Things’, the Pour Tous cooperative, and more. We have observed a rather progressive and steady growth in Auroville over the last decades.

This pace was required for Auroville to accommodate the needs of the new members of the community - from housing to schooling to farming etc.

ABOUT IKEBANA, by Valeria Raso Matsumoto
Ikebana is the Japanese Art of Flower Arrangement.
It is a disciplined art form where the arrangement is a living
thing in which nature and humanity are brought together.
It is steeped in the philosophy of developing a deep connection
with nature.
In the most traditional school of Ikebana, the three main
elements of the composition are said to represent Heaven,
Humanity and the Earth.
In Ikebana, empty space plays an essential part of any
arrangement.
The elements, placed asymmetrically, are given emphasis by
the empty spaces.
Thus, the totality of a well-done arrangement brings about a
state of serenity and peace to the viewer.

Born around the 6th AD in Japan as a religious offering at
Buddhist temples, Ikebana slowly became popular among the
aristocracy and the samurai class.
To reach a state of peace of mind and a state of concentration
before going to battle, some samurai would perform both
Ikebana and Tea Ceremony to purify their heart and mind.
By the 16th century, Ikebana had become a Zen practice.

One becomes quiet when practicing Ikebana.
One becomes more patient and tolerant of differences.
The ephemeral side of Ikebana helps us to not become
attached to the material creation, but rather to love and respect
it in the real moment of its existence.
Together with some flowers, leaves, a vase and our inner
being, we achieve silence and harmony between Nature and
ourselves.

Valeria Raso Matsumoto was born in Sicily, Italy.
Graduated in Psychology at the University of Padua.
She has sailed around the world for 8 years with her husband
Kenji Matsumoto. She lived for 15 years in Japan where she
studied Ikebana for 10 years.
She graduated from the Sogetsu school of Tokyo with the stage
name Suiren (Water Lili).
Since 2001 she has been living and teaching Ikebana in
Auroville.

Bio-Resonance (with Bi-Com machine) with Afsaneh
Bio-Resonance therapy is a complementary or alternative medicine therapy. It uses a device to determine the frequency of energy wavelengths emitted by the body. These measurements are then used to provide a diagnosis of a disease.

All body cells emit electromagnetic vibrations. During illness or injury these vibrations become disharmonious.

The Bi-com equipment can read these vibrations and transmit complimentary electromagnetic vibrations to restore harmony in the body.

The Bi-com equipment has computerized programs to make an energy diagnosis and to determine which therapies are appropriate for specific symptoms, organs, and meridians.

Bio-resonance therapy can be used for both diagnosis and treatment.

Chiropractic Adjustment by Afsaneh
Chiropractic is a health care modality that emphasizes diagnosis, treatment, and prevention of mechanical disorders of the musculoskeletal system, especially the spine.

The main chiropractic treatment technique involves manual therapy, including manipulation of the spine, other joints, and soft tissues; treatment also includes exercises, and health and lifestyle counselling. Most who seek chiropractic care do so for lower back pain. This healing modality offers at the same time a journey to discover oneself and the deeper functioning of our emotions.

India Emergency Response Service (24/7): 108
Potpourri – Tuesday 10 October, 8:00 pm:
• THE MAN FROM THE EARTH

USA, 2007, Dir. Richard Schenkman w/ David Lee Smith, Tony Todd, John Billingsley, and others, Fantasy-Mystery, 87mins, English w/ English subtitles, Rated: NR (PG)

From one of the acclaimed writers of Star Trek and The Twilight Zone comes a story that transcends both time and space. In this film, an impromptu goodbye party for Professor John Oldman becomes a mysterious interrogation after the retiring scholar reveals to his colleagues, he is more than a thousand years old and has a stranger past than they can imagine.

Interesting – Wednesday 11 October, 8:00 pm:
• SOME KIND OF HEAVEN

USA, 2020, Dir. Lance Oppenheim w/ Dennis Dean, Lynn Henry, Anne Kincer, Documentary, 81 mins, English w/ English subtitles, Rated: NR (G)

Behind the gates of a palm tree-lined fantasyland, four residents of America's largest retirement community, The Villages, FL, strive to find solace and meaning.

Selection – Thursday 12 October, 8:00 pm:
• RELATOS SALVAJES (Wildtales)

Argentina-Spain-France-UK, 2014, Writer-Dir.Damián Szifron w/ Darío Grandinetti, María Marull, Mónica Villa, and others, Comedy-Thriller, 122mins, Spanish w/English subtitles, Rated: R

This is a funny film that explores some of the darker parts of humanity, but it does so with a lot of wit and intelligence. The film is composed of six short segments: "Pasternak", "Las ratas" ("The Rats"), "El más fuerte" ("The Strongest"), "Bombita" ("Little Bomb"), "La propuesta" ("The Proposal"), and "Hasta que la muerte nos separe" ("Till Death Do Us Part").. Each one tells a unique story.
